

**AWANTYS' sustainability efforts rewarded with Gold rating from EcoVadis**

Wiehl, 01/13/2022 In recognition of AWANTYS Group's successful sustainability efforts, AWANTYS GmbH has been awarded the EcoVadis gold rating in December 2021 which places the corporation in the top 5% of companies globally. It was AWANTYS' first participation in the EcoVadis assessment.

“The EcoVadis gold medal is an objective acknowledgement of AWANTYS' dedication to sustainability and our continuous efforts to advance in this area. It is a strong sign towards all our stakeholders and strengthens our commitment to further pursue this course”, states Carsten Wolansky, Managing Partner of AWANTYS Group. Eric Bigotte, AWANTYS' Senior Sales Manager in France and Southern Europe, adds: “We know that our clients care deeply about sustainability and the EcoVadis gold rating shows that we deliver on our responsibility to support them in making their value chains more sustainable”.

This latest recognition follows a number of notable sustainability milestones achieved by AWANTYS such as the launches of AWYVERDE® - a proprietary biocompound packaging solution - and of AWYCYCLE - packaging from post-consumer resin (PCR). For 2022, the Group has announced the introduction of packaging from certified Ocean Plastics.

*About the EcoVadis assessment*

The EcoVadis Rating reviews companies across a number of areas that are key to meeting sustainable targets such as the environment, labor & human rights and ethics. To date, EcoVadis has rated more than 75,000 companies globally via its unique CSR assessment methodology that is built on international CSR standards including the United Nations Global Compact, the Global Reporting Initiative and ISO 26000.

*About AWANTYS Group*

Since 1952, AWANTYS Group with its headquarters near Cologne in Germany and its branches in France and Bulgaria develops and produces primary packaging for fragrances, skin care and decorative cosmetics.
